

Phytoprofen®

Botanical extracts that support a healthy cytokine balance and help minimize bruising and swelling.

Phytoprofen combines ginger, Boswellia, and curcumin phytosome to support healthy cytokine balance. Bromelain reduces swelling and bruising. Phytoprofen supports healing after injury or surgery.

Phytoprofen can minimize post-operative or post-injury bruising and swelling, in addition to helping prevent connective tissue breakdown. It contains a blend of Ayurvedic herbs – ginger, Boswellia, and curcumin – which together support a healthy cytokine balance in the body. Phytoprofen also contains bromelain, a protein-digesting enzyme complex derived from pineapple that studies have shown will reduce bruising after injury. Supplementation with bromelain following a blunt injury to the musculoskeletal system can reduce swelling and tenderness. Phytoprofen can be used to promote healing after injury or surgery.

Suggested Use

Take 2 capsules two to three times daily or as recommended by your health professional.

Allergy Warning

This product is contraindicated in an individual with a history of hypersensitivity to any of its ingredients.

Pregnancy Warning

If pregnant, consult your health professional before using this product.

Interactions

Because bromelain has fibrinolytic effects, potentially inhibiting blood clotting, Phytoprofen should be used with caution or avoided in individuals on anticoagulant therapy or prior to surgery.

Curcumin has been shown to reduce the therapeutic efficacy of cyclophosphamide (Cytosan) in animal studies. In vitro research reveals curcumin decreased camptothecin-induced death of cultured breast cancer cells. Curcumin might also interfere with the absorption and efficacy of the chemotherapy drug irinotecan, used to treat colon cancer. The concurrent use of curcumin with these agents should be avoided.

Additional Warnings

It is not recommended to remove the Phytoprofen powder from the capsule to take orally, as it can be irritating to the oral mucosa.

SUPPLEMENT FACTS

Serving Size: Two Capsules
Servings Per Container: 30

Two Capsules Contain:	%DV
Bromelain†	250 mg *
Curcumin Phytosome†† (<i>Curcuma longa</i> extract (root) / Phospholipid complex from Sunflower)	250 mg *
Ginger extract (root, rhizome) (<i>Zingiber officinale</i>)	250 mg *
Indian Frankincense extract (gum) (<i>Boswellia serrata</i>)	250 mg *

*Daily Value (DV) not established.

Other Ingredients: Hypromellose (derived from cellulose) capsule, Leucine.
